Summary

Able to collaborate with senior developers, I am also willing to spend extra time learning from them. **Experience** in planning and developing high-quality **real web applications** with clients from all over the world. Consistency is the key to becoming a professional, that's why **I practice every day**.

Skills

JavaScript • HTML5 • CSS3 • React Js • Figma • Photoshop

Work Experience

Freelance

Oct 2021 – present

Freelancing • Full-time

Remote

Technologies: JavaScript • HTML/CSS • React

I work as a freelancer creating high quality websites, html conversations and landing pages for clients all over the world using **HTML, CSS, Javascript and React Js**.

Converting **pixel-perfect designs, solving problems, excellent communication** with the client and creating friendly websites to implement in the real world are essential requirements in this job.

Projects

Gaming Ecommerce Website

Mar 2022 – Apr 2022 • 1 mo

1 coworker

Technologies: React • React router • Styled Components

This is an application that simulates an ecommerce where you can add and remove products from your cart, it has a filtering system in the sidebar, each product has its own page.

README project description generator

Apr 2022 – Apr 2022 •

1 coworker

Technologies: React • React router • Styled Components

In this application you can generate a markdown format text ready to paste in your README file based on your entries. You can add a title, description, installation, technologies used, etc. **This app was created with React Js, using react hooks, styled-components and react router.**
